from the president

Dear fellow Columbians,

What to do during April showers? The answer is obvious. Come to the Columbia University Club of New York. Escape the wet weather and take shelter in a warm, hospitable clubhouse filled with photos of campus, not to mention a great bar, good food and wines, a welcoming gym, and even a barber. The food is terrific, the wine will warm your spirits, and the spirits will stop any whine.

When May flowers, celebrate Happy Hour on the terrace. Invite a friend or two. Enjoy what midtown has to offer.

Both the Grill and the formal dining room are perfect settings to entertain clients, family and friends. Think about bringing your whole family to the Club to celebrate Mother's Day, or just a special meal. In addition, whether you are hosting 5 people or 250, the Club can accommodate your out of office meetings, conferences, social events, parties, weddings and any other special occasion.

One of the benefits of membership in the Columbia Club is our network of reciprocal Clubs that stretch from Philadelphia to the Philippines, from Tennessee to Thailand and from South Africa to South America. Located in all the major cities of the United States and across the world these reciprocal clubs offer a home away from home. My kids and I have stayed in reciprocal clubs and found them to be friendlier, warmer and more hospitable than hotels. Like our clubhouse in New York City, the reciprocal clubs are centrally located and most often the rooms are more economical than equivalent hotel rooms.

In addition to business locations in cities across the United States, many of the reciprocal clubs are in prime vacation destinations with golf and tennis and spas. For example, take a look at our reciprocal club in Bermuda to see what membership in the Columbia Club can bring you. We know how important these reciprocal clubs are to our members and we continue to work to bring more clubs into the network.

Most of all, please remember that the Club is here to serve you. Please let me know what we can do to make your membership more pleasurable or your event or banquet more enjoyable.

Warmest regards from midtown,

Mark Lemle Amsterdam '66 CC, '69 Law

He argues intense policies such as airport body scanning, drug testing and law enforcement patrol have a negative effect on minorities, dissenters and unorthodox thinkers, though they can affect us all.

After the Bolshevik Revolution and near ruin, Frederick made a second fortune in Constantinople. He opened a series of nightclubs that introduced jazz to Turkey, before the reach of American racism, xenophobia and his own extravagance led to his demise.

GLOBAL SCHOLARSHIP IN A MODERN WORLD

WEDNESDAY, MAY 15

6:00pm?

Cost: ??

Globalization is the premier driver of change in the 21st Century. From business and telecommunications to arts and culture, the world is increasingly becoming interconnected and global in perspective. As a direct response to this new paradigm, Columbia University has established the Columbia Global Centers, an integrated network of centers creating opportunities in research, scholarship, learning and outreach, across major metropolitan cities throughout the world. There are currently eight global centers operating in Beijing, Amman, Paris, Mumbai, Istanbul, Santiago, Nairobi and Rio de Janeiro.

The Centers promote research projects and education programs that require working across disciplinary boundaries, having a presence in multiple regions, and engaging non-Columbia experts and scholars. The Centers provide facilities, staff with rich local expertise, and collaborative learning environments aimed at enhancing the specialized work done by faculty, students, and alumni. They connect Columbia to deeper networks of expertise and to people around the globe... and quite possibly connect these places back to you! The Centers host activities, bring together personal networks, serve as alumni connectors and regional homes for area alumni, and facilitate opportunities for engagement with a global community of scholarship and intellectual discovery.

Join Professor Safwan M. Masri, Vice President for Global Centers, and a distinguished panel, for a fascinating conversation about the global centers. Included will be a discussion about current and potential alumni participation in this emerging and expanding global initiative of Columbia University.
